

Oliver, your card mailed the 11th, here today, reminds me I have an envelope I've forgotten to mail to you.

You have no carbon so I'll repeat, your emphasis: "Why don't you compose a letter that I could send to A.G. Bell & FBI Dir concerning map, etc. It ~~contains~~ might be very embarrassing to them if handled properly."

I'll be glad to prepare a draft for you if you tell me what you want to say.

Yes, some of clips were interesting.

John has court-appointed Public Defender lawyer named Blair Drazit. Know anything about him? As of yesterday he had not been in touch with Cesar. And as of yesterday had not returned Carol's call. He had forbidden any press access to John, who I think needs attention to what is being done to him. Thus I ask about the man. Also because he has not been in touch with layer of record before both committee and parole board as well as Supreme Court on petition cert re St. Charles charge. May be innocent but seems odd.

Sincerely,
